

KVHI®

Satellite TV
Small. Simple. Powerful.

KVHI TracVision® M3

Small

Smallest stabilized TV antenna in the industry – breakthrough technology designed specifically for vessels as small as 25 feet.

Simple

Comes complete with KVH's exclusive mobile receiver for DIRECTV service and compact antenna for easy installation and operation.

Powerful

Super high-efficiency antenna design delivers performance comparable to larger 18" antenna systems.

40% SMALLER than 18" systems,
but just as powerful!

Small. You asked for it – we delivered! Introducing the new TracVision M3.

The world's smallest, fully stabilized, mobile satellite television antenna system!

Time to put the DVDs away and welcome aboard live satellite TV. Introducing the newest addition to the KVH TracVision family – the TracVision M3 – bringing smaller boats the excitement and variety of DIRECTV® programming wherever you cruise. Suited for boats as small as 25 feet, it's the smallest, simplest, most powerful way to get all of the live entertainment you've been looking for. And with an advanced 14.5" antenna design, it has signal strength, reception, and coverage comparable to 18" antennas. Crystal-clear TV proves that less is more!

The TracVision M3's breakthrough technology is evidence that great things come in small packages. Everything you need for DIRECTV on your boat comes in one single box – antenna, receiver, remote, all ready to connect to your boat's 12-volt power supply and TV. Enjoying DIRECTV programming on-the-go or at the dock has never been so easy! With a TracVision M3 onboard, turn an ordinary boat trip into a cruise!

Small

Simple.

We made it easy in every way.

TracVision M3 has all the features that you've been asking for in an easy-to-operate system. It is powerful technology made simple. Bundled with an industry first – KVH's exclusive mobile satellite TV receiver – you get a complete turnkey solution designed for simplicity and ease, just like you're used to at home! One cable, a 12-volt connection, connect the receiver to the TV and...you get the picture!

- **Simple installation and set-up** – single cable and integrated 12-volt receiver
- **Simple operation** – automatically finds the satellite for crystal-clear TV on-the-go!

TracVision M3 Antenna

Single coax cable design

Integrated 12-volt Receiver for DIRECTV® Service

Backlit RF/IR Remote Control

Simple

Powerful. Offshore coverage comparable to 18" antennas!

Small enough and light enough for sailboats and smaller powerboats, our breakthrough, super-efficient 14.5" antenna gets crystal-clear reception and provides coverage comparable to 18" antennas, even while cruising to your destination. And its rugged, reliable, and compact design will provide years of trouble-free operation. Unlike products designed for at-anchor or coastal use, the TracVision M3 meets the demands unique to smaller vessels and sailboats. Salt, sun, and sea; coastal or offshore; anchored or full throttle – bring it on!

- Great offshore coverage (100-200 miles)
- Fast, powerful, ultra-quiet motors; no cable wrap
- Fully automatic satellite acquisition
- Access to 300+ channels of DIRECTV programming – news, weather, sports, movies, and XM radio music!
- Multi-receiver capability (dual-output LNB)
- Superior warranty backed by KVH's Certified Support Network (CSN)

Powerful

Hundreds of channels of programming

Representative TracVision M3 Satellite Service Coverage Area*

and many more!

The small, simple, and powerful new TracVision M3 joins the distinguished KVH TracVision family.

TracVision systems are also available with 18", 24", and 32" antennas, so always consider your cruising area and the coverage and programming offered by television satellites in the area where you plan to travel.

When selecting an antenna, ask your KVH dealer for details.

*The coverage map provided is to be used as a reference only and may be impacted by weather conditions. KVH provides no guarantees of satellite coverage, satellite availability, or programming.

Specifications

Antenna Dish Diameter:	14.5" (37 cm)
Radome Diameter/Height:	15.5" (39 cm)/17.5" (44 cm)
Antenna Weight:	19 lbs. (8.6 kg)
Receiver Dimensions:	11" w x 9" l x 2.6" h
Minimum EIRP:	50 dBW
Power:	4.5-5 amps @ 12 volts DC
Satellite Service Supported:	DIRECTV® (101°W satellite)
LNB:	Custom low-noise, dual-stacked
Warranty:	2 years parts, 1 year labor
MSRP:	\$4,995

KVH – The leader in mobile satellite TV and communications systems

KVH Industries is the world's leading provider of mobile satellite television and communications antenna systems and has been serving the marine industry since 1982. With more than 75,000 mobile satellite antennas sold, KVH has supplied more in-motion satellite TV and communications systems for mobile applications than any other manufacturer in the world. In the marine industry, KVH TracVision and TracPhone® systems have won the prestigious NMEA "Best Product Awards" for the past 8 years in a row!

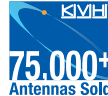

KVH's commitment to quality can be seen in the company's reliable products as well as an array of options that provide global product support to every customer. Wherever you travel, whatever KVH product you own, you can be certain to receive outstanding support and service through KVH's product and customer support programs. An ISO 9001:2000-certified organization, KVH meets the highest international standards for quality.

However, don't take our word for it. Just look around. In any harbor, in any marina around the world, you'll see more KVH TracVision antennas on more boats than any other brand. Consumers, boatbuilders, and marine electronics experts agree – when you choose KVH, you choose the best!
